

Speech at CEWP High-Level Dialogue Meeting

Mr. Yan Zhiyong
(Sep.24, 2012)

Glad to attend and give an speech on this CEWP High-Level Dialogue Meeting, on behalf of hydropower construction enterprisers.

Water is the source of life, base of civilization. To develop water recourses in a rational way, mitigate water disasters and keep harmony between human and water, is a common duty of the world water sector.

- **Power Construction Corporation of China (PCCC) is a wholly state-owned corporation approved by the State Council.**
- **PCCC is formed by merging and restructuring of Sinohydro Corporation, Hydro China Corporation and 14 provincial (local) survey & design institutions, power construction companies and equipment manufacturers under State Grid and China Southern Power Grid.**
- **PCCC is a mega-scale power construction company, capable of providing one-stop service in various power sectors. Its world-class technical edge covers planning, survey, design, construction and operation in hydropower, thermal power, renewable energy, power grid and infrastructure..**

- Most of branch companies of PCCC has more than half a century's history.
- Completed designs, surveys, EIAs, settlement planning for more than 80% of medium and large scale hydropower and water projects in China.
- Undertaken construction of 65% medium and large scale hydropower and water projects, in the field of water supply, flood control, wastewater treatment.
- Involved in many clean energy projects on wind, hydraulic, nuclear and Photovoltaic power generation construction.

- As of the end of 2011, PCCC's total assets reached RMB 243.4 billion, total business revenue RMB 182.9 billion.
- Ranked No. 390 in the 2012 fortune 500;
- Ranked No.15 in the ENR global 225 international contractors;
- The No. 16 of global design companies.

- PCCC is actively boosting its international strategy.
- Its business, including construction and eco-tech cooperation, covers more than 60 countries and regions in Asia, Africa, Europe and America.
- Shared 50% in hydropower construction market globally.
- PCCC and its branches have actively cooperated with famous western enterprises.
 - Established strategic cooperation relations with Siemens in Germany, Amtrak Baer engineering company in Belgium, etc.
 - Signed MoU with GE America
- We are willing to cooperate with reputable and professional Europe corporations, especially interesting in investment and construction opportunities in field of hydropower, water affairs and energy.

PCCC is actively implementing “large group, big market, big brand” strategy, and strives to become international leader in clean and renewable energy and water conservancy construction industry who can provide integrated infrastructure construction services in the whole industry chain with core technology and internationally renowned brand. It tries to be a world-class integrated construction group with strong international competitiveness, quality and efficiency. It seeks the widest possible cooperation and greater development in the world. Together with both Chinese and foreign friends from all social circles, to further enhance friendship and extensive cooperation, we will join hands and work together to create a better future for the human society!

中国电力建设集团有限公司

POWER CONSTRUCTION CORPORATION OF CHINA
